deRSE19 – 1st INTERNATIONAL CONFERENCE FOR RESEARCH SOFTWARE ENGINEERS IN GERMANY

4-6 JUNE 2019

Albert Einstein Science Park, Potsdam

RESEARCH SOFTWARE ENGINEERS (RSEs) are people who develop, run, and maintain software in scientific and scholarly research.

deRSE19 brings together RSEs in Germany for the first time, in a community conference for knowledge exchange, collaboration and community building.

Together we build and shape the community of Research Software Engineers in Germany as part of the international efforts towards

- sustainable practices,
- acknowledgment of software as crucial part of the research process,
- development of relevant career paths for software developers in academia

Become part of the community with a [contribution to the conference!](#)

CALL FOR CONTRIBUTIONS: Proposals for talks, posters, workshops, meetings can be submitted with a very short abstract, until **28 February 2019:**

<https://derse19.uni-jena.de/derse19>

deRSE19 is organized by the *Software Engineering* working group in *Gesellschaft für Informatik e.V.*, and *de-RSE e.V. – Society for Research Software*.
